CAREER OBJECTIVE

Enthusiastic and detail-oriented M.Sc. Zoology graduate (CGPA 7.35) seeking an entry-level opportunity in biology education, wildlife research, environmental science, or laboratory-based roles. Equipped with practical internship experience in pisciculture and agricultural science, workshop training in Foldscope microscopy, and certifications in data science, presentation, and business communication. Committed to applying strong subject knowledge and a genuine passion for life sciences to contribute meaningfully to a research institution or educational organisation.

EDUCATION

Master of Science (M.Sc.) — Zoology 2023 – 2025

Jamal Mohamed College (Autonomous), Tiruchirappalli | CGPA: 7.35 / 10

Bachelor of Science (B.Sc.) — Zoology 2020 – 2023

Bishop Heber College (Autonomous), Tiruchirappalli | CGPA: 6.65 / 10

KEY SKILLS

Subject Knowledge: Zoology, Biology, Life Sciences, Ecology, Marine Biology, Wildlife Conservation, Environmental Science

Lab & Field Skills: Foldscope Microscopy, Specimen Preparation, Pisciculture Methods, Pond Management, Green Fodder Production

Research Skills: Scientific Observation, Data Recording, Report Writing, Experimental Design, Literature Review

Teaching & Communication: Lesson Planning, NCERT / CBSE Curriculum, Presentation, Student Mentoring, Science Communication

Technology: Data Science & Analytics, AI Fundamentals, MS Office, Basic Digital Tools

Soft Skills: Team Collaboration, Time Management, Adaptability, Problem Solving, Attention to Detail

INTERNSHIPS & FIELD TRAINING

Trainee — Green Fodder Production & Dairy Value Addition 2021

VUTRC | Skill Training of Rural Youth Scheme, Tamil Nadu

- Received hands-on training in green fodder cultivation, preservation methods, and value addition techniques for dairy products.
- Developed practical understanding of farm management, soil preparation, and rural agricultural best practices under expert supervision.
- Gained insight into the nutritional science of animal feed and its impact on dairy productivity.

Trainee — Pisciculture & Aquaculture Techniques 2022

KPK Fish Farm, Tamil Nadu

- Studied and practised fundamental freshwater fish farming methods including pond preparation, stocking, and feeding protocols.
- Observed fish health monitoring, disease prevention measures, and post-harvest handling procedures.
- Gained field exposure to water quality management and sustainable aquaculture practices.
- Business Communications — HP LIFE (Nov 2024)

KNOWLEDGE ACQUISITION EVENTS

- Workshop on Foldscope: Technology and Its Uses (2022) — Organized by the Ministry of Culture, Government of India and Tamil Nadu Science and Technology Centre. Gained practical exposure to portable microscopy technology and its applications in field biology and science education.

SEMINARS & CONFERENCES ATTENDED

- Wildlife Conservation — Topics covered: conservation biology, protected area management, biodiversity monitoring, and human-wildlife conflict resolution.
- Marine Fisheries of India & Research Activities of CMFRI — Overview of India's marine fisheries sector and sustainable fisheries management research.
- Value Added Course on Employability Skills — Professional development training covering workplace communication, interview preparation, and career planning.

AREAS OF INTEREST

- Human & Animal Physiology and Anatomy — body systems, organ functions, and comparative anatomy across vertebrate species.
- Environmental Science — ecosystems, climate impact, pollution control, and sustainability practices.
- Research & Laboratory Techniques — microscopy, specimen preparation, experimental design, and scientific data analysis.
- Forest Ecology & Silviculture — forest management, silvicultural systems, forest health monitoring, and forest products.
